

HAWKER

FLEX[®] Li3

THE NEXT GENERATION

The new generation HAWKER FLEX[®] Li³ lithium-ion battery sets a new standard in motive power with an advanced, economical lithium-ion solution for motive power.

Its modular design delivers high energy density at the system level, providing more runtime and efficiency while adapting to a wide range of applications. Built with the same trusted safety as our first generation, the new HAWKER FLEX[®] Li³ battery is future-ready with IoT-enabled remote monitoring and management, allowing operations informed control over their energy fleet, reducing downtime and maximizing productivity.

- Advanced, economical lithium-ion solution
- Remote monitoring and management
- Equipping operators with data-backed information
 - Reducing downtime
 - Maximizing productivity
- Integrated Battery Management System (BMS)
- Ideal for light, medium, and heavy applications
- Delivering high-energy density
 - Providing more runtime and efficiency
- Modular design
